

BARRY RICE

It's simple. The kid that lived at the end of the block who studied math and magic has grown up and wow!

Barry just kept studying and now after hundreds of magical performances and a Masters Degree in Mathematics, he's turned into one of the most talented magical entertainers in the Midwest.

Barry's act flows from gentle humor to mind numbing illusions, to simply impossible feats... not things you normally see on stage.

He draws. Barry doesn't simply find a chosen card in a deck. He draws a deck on a pad of paper and then a drawing of the chosen card slides up from the deck on the paper. Amazing!

He inflates. Barry blows up a large balloon and it gets bigger and bigger and instead of it popping — he gets inside. Fantastic!

He recycles. Barry destroys paper, ripping and tearing it into small pieces. Rope is repeatedly cut. It all gets humorously put back together. Don't even ask what he does with glass. Unbelievable!

He entertains. Barry combines clever humor, thoughtful words and incredible skills. Wonderful!

Please call Mike or Don at FamilyTime Entertainment at 317-635-7770 to secure your date to experience this unique entertainer, Barry Rice.
