

## Colors & Numbers & Magic...

Colors and Numbers and Magic, Oh My! is one of the all time favorite preschool shows from FamilyTime Entertainment and Magic Don. After thousands of these shows we've found that Preschoolers love to show off their skills with counting and naming their colors. They also find nothing funnier than correcting Magic Don as he *seemingly* struggles with *his* numbers and colors. Throughout the show with the children's help, and a little magic, everything works out all right.

There's tons of audience participation and lots of kid helpers who get to be on stage with Magic Don. A colorful mini-set with giant crayons, a set of magical drawers with surprises inside, coloring books that color themselves and turn to blank pages in a flash all are part of the show. After counting the dots on the 4 inch dice from our Giant Candy Land Game a child makes the dice disappear after a whole lot of silly fun. And that's not the half of it!

The show is designed for children from 3 to 8 years old and is 45 minutes long. It requires very little space with children setting on the floor. Colors and Numbers and Magic Oh My! is a show that entertains, encourages and leaves the children with memories of a new friend Magic Don and amazing magic. Call today for availabilities.
