

FamilyTime Entertainment's **WORKSHOP PROGRAMS**

BE A MAGICIAN—MAGIC WORKSHOP

This hands-on workshop teaches children—ages seven and older—to actually be magicians. They learn how to perform the tricks and even get to make them. All the materials are furnished by FamilyTime and the children can take the materials home to perform the tricks for their families and friends. Taught by Magicians Don Miller or Eric Rose.

BE A MIME WORKSHOP

This hands-on workshop is taught by Professional Mime Jodi Lynn. The workshop teaches school-aged children the ins and outs of being a mime. The children actively participate as Jodi Lynn leads them through the basic skills that mimes are required to know. Children will actually be able to perform certain skills for their families & friends.

BALLOON "TWISTING" WORKSHOP

Professional Balloon Artists Tina Kost or Will Thomas bring their 15 years of experience and their skills to children—seven years and older—for this hands-on balloon twisting workshop. All materials are provided. The children will actually be able to make basic balloon animals and other art for their families and friends.

The above workshops are approximately 45 minutes in length and are limited to about twenty-five children for each session. Many day cares & libraries book the artist to perform their family show for everyone and then follow with the workshop for the older children.
