Puppet Playtime

Fact: Children love to see puppets.

Puppet Playtime starts with a big red, blue and yellow trunk. Then special puppet friends appear from inside the trunk and the fun begins. Red and his brother Ed, large ventriloquist puppets, show up and act up. The children can't believe their wild antics. Little giggles happen, and then squeals and often laughter fills the entire room. A very rare bird, a large string puppet, walks through the audience and gets more hugs and kisses than a rock star.

Fact: Children love to play with puppets.

The children first get to talk with the puppets. Then hug a puppet. Then the fun escalates. Kids get to be in the show

as puppeteers with a Muppet-type puppet, then a finger puppet parade, the "world's largest kid puppet", and lots more hands-on puppet experiences. There's whole audience fun: participation stories, activities and silly props are also in the show and help to make Puppet Playtime truly a show kids love and adults appreciate.

Fact: Children love Puppet Playtime

Magic Don with his 30+ years of experience entertaining children created this gentle and fun program for younger children. Many Preschools, kindergartens and elementary schools bring back Puppet Playtime year after year. Magic Don and Puppet Playtime's puppets are "real" friends that children will remember.
