December 1, 2003

Dear Don:

This letter is to extend our many thanks for the wonderful show you presented to the Children at Riley Hospital Children during the Riley Birthday Party. You did a great job of getting the patients involved with your magic routines. Whether it was a small group or at bedside you brought a smile to the faces of so many. We appreciate you coming on such short notice and hope you can come again in the future.

Riley hospital for Children attends to children from all over the state of Indiana, and many of our patients travel many miles from home for lengthy stays. It is the job of the Child Life department to bring normal, every day life into the hospital to distract from what could be a stressful situation. It is people like you that bring joy and laughter to our patients and make our job so successful. Thank you for all you do.

Sincerely yours,

Angela Butcher
Child Life Specialist
Riley Hospital for Children
