

**Not sure how to
put all the pieces
together for your
next event...**

At FamilyTime Entertainment we know how to create the perfect fit for all the pieces in your next event.

Every company wants their event to be memorable for all the "good reasons". After the event no one wants to hear complaints about the entertainment, the food, the theme, the parking, the venue, the decorations...any of the details that go together to make a good event. In short, you don't want to worry about whether everything will happen as planned on time and on budget.

For over 20 years, the people of FamilyTime Entertainment, Inc. have used their talents and experience to help companies and organizations plan the best possible event while still meeting their budget and exceeding expectations. From picnics to luncheons, trade shows to sales meetings, employee recognition to customer events, we put all the pieces together.

When a company first contacts FamilyTime Entertainment regarding an upcoming event we:

- Determine what the goals are for the event.
- Mutually decide in which areas FamilyTime Entertainment will be involved. We do as much or as little as you require.
- FamilyTime creates a proposal including timing, budget, entertainment and our other ideas on how the event should be conducted.
- Finally, when all is agreed upon, FamilyTime delivers what has been promised.

At FamilyTime Entertainment we are proud that we produce worry-free events. We know what can go wrong. We eliminate the problems with careful planning and attention to detail. In short you know before the event that everything will be alright!

The perfect fit for your event.

Here are a few examples of what FamilyTime Entertainment does for our clients:

Indianapolis Power & Light

Company Picnic

Indianapolis Power & Light has an employee picnic each year at a company-owned park near one of its generating facilities. They wanted to generate more response and make the event into more than an eat and leave picnic. FamilyTime added clowns with face painting and balloons for the kids and a magic show for the whole family. And created a Wacky Olympics for everyone. These are games and events that everyone can participate in and that help introduce employees and their families to one another.

Cummins

Team Building Event

Cummins approached FamilyTime with an idea for a team building event they wanted and they wanted it in a hurry. Five days later FamilyTime produced the event for over 300 people on time and on budget. FamilyTime created a massive scavenger hunt for their international sales force in the Circle Centre Mall (Indianapolis) with celebrity stations, wacky activities, and four color printed materials. The design, writing, production and printing was handled by FamilyTime.

Orchard in Bloom Festival

Fairs and Festivals

Orchard in Bloom is a nationally known and respected garden show that wanted to add entertainment and activities for the whole family. They asked FamilyTime for ideas and we created a children's activity tent and added 12 entertainers over the 3 day run of the event. The challenge was to add to the event not distract from it. We combined entertaining caricature artists, balloon sculptors, strolling magicians and jugglers, make your own clay pot, a guitar petting zoo, plant and take home your own flower, a coloring contest and bubble pool activities. Was our plan successful? The guests said it was a wonderful addition and FamilyTime is invited again.

Bank One

Holiday Event

Bank One told FamilyTime that they wanted a holiday event that clients would remember... not just the typical dinner, drinks and a band. A cruise ship theme was agreed upon and FamilyTime created the evening. Guests arrived at "the dock" to see the ship's crew in their uniforms, tropical animal vendors and strolling ship's magicians. Exotic steel drum magic filled the air before the Cruise Magic and Comedy Show on the USS Banco Uno started. Guests also had their fun recorded in caricature artist's drawings and learned of their good luck to come with the ship's fortune tellers. Disposable cameras given to the guests made sure that these cruise memories would last a long time.
