

THIS IS
SO SILLY!

Wacky Lympics

If you are looking for incredible feats of strength, athletes with finely honed skills and in breath taking competitions, you won't find them in *The Wacky Lympics*. You will find a collection of unique fun games for kids and adults.

ON WITH THE GAMES

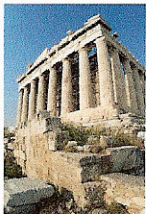

The opening ceremonies start with some amazing magic and hilarious audience participation. Then the whole group is divided up into two teams, and given their official team names and their team cheers.

EVERY ONE IS A WINNER

The events for the *Wacky Lympics* are chosen to fit the age ranges of the children and consist of whole team participation events and qualifiers that are done by a few members chosen from the teams. Both kids and adults get to get silly and compete. Points are given to the winning and losing team in each event and surprisingly at every *Wacky Lympics* to date, it has been all tied up at the finish of the regulation time. So, every one is declared a winner at the closing ceremony.

A MEMEORABLE EVENT

Everyone agrees that the Wacky Lympics is a unique, fun and memorable program that emphasizes the fun we can have playing together.

THE OFFICAL EVENTS

The games are designed to encourage the adults and children to play together and depend on each other. Kids get to be in charge in a number of the events. Wacky relay races and skill contests make sure the most reluctant child can participate easily. The games include:

Kids Lead, Adults Follow, is a skill relay race where the adults have to be led (because their eyes are closed) while they balance an "egg substitute".

First Bubble
Gum Champ

Bubble Gum Blow Up is a team qualifier where several adults try to blow the first bubble. Whipped Cream complicates things and adds to the fun.

Rubber Chicken Surprise is a wild game that challenges the brain and the hands.

Faulty Towers is a challenge race between small groups from each team stacking a weird collection of everyday objects to see who can build the tallest *Faulty Tower* in the allotted time.

Balloon Battle pits small teams against each other in seeing who can stomp the other teams balloons first. Each balloon is tied to a cord that is attached to each child's ankle.

These are just a sampling of the games that are used in the *Wacky Lympics*. Games are chosen to accommodate both indoor or outdoor performances. The Wacky Lympics run between forty five minutes and one hour. This program is designed for adults and children together and adult participation is required. The closing ceremony features the awarding of the *Wacky Lympics Trophy* and the official group digital picture is taken. For a reminder of all the fun, both the Team Photo and the Trophy can be displayed at your site.
