

## FAMILY TIME Programs

# The Water Show

**The Water Show** is the most requested show that FamilyTime Entertainment, Inc. offers. All ages seem to remember the great fun they've had playing in the water, and **The Water Show** captures that fun for everyone again. Kids and adults alike smile, giggle and laugh at **The Water Show** and have a memorable fun experience in this wacky wild outdoor show.

In **The Water Show** water disappears, reappears and magically moves from one place to another - and we all get wet! Prior to the show the kids are informed that they should wear a swim suit to the show and bring a towel. On a hot summer day the towels are usually unnecessary because everyone dries off so fast.

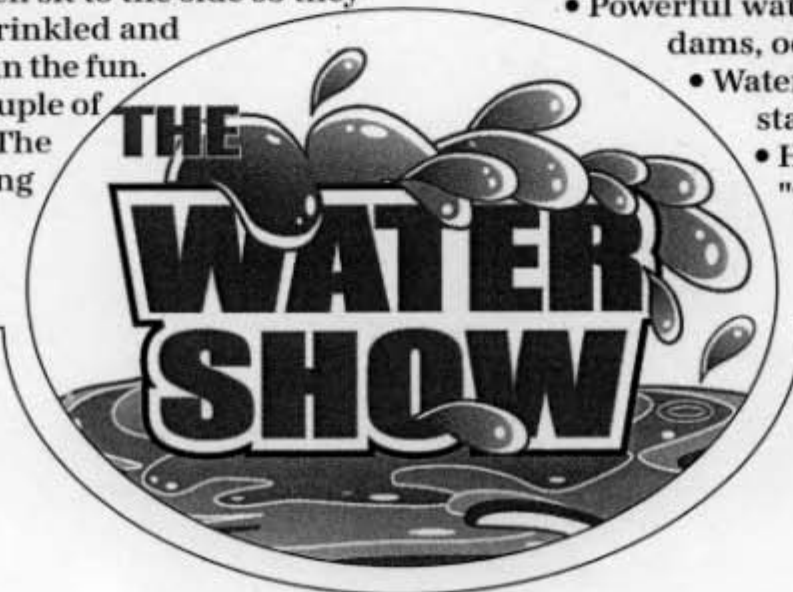

There is a **Dry Zone** for those children and adults who choose not to get wet. Younger children sit to the side so they can be hand sprinkled and still participate in the fun. We even let a couple of adults get wet. The kids find nothing

funnier than an adult getting wet.

**The Water Show** features a Wacky Water Machine that not only holds the magic props, but makes a great backdrop for the show.

**The Water Science Show** is the indoor or outdoor show that still features great magic tricks, lots of audience involvement but the science of water is added to the program. **The Water Science Show** is designed for children 3rd grade and above. You have the choice of indoors or outdoors, hand sprinkles or really wet. **The Water Science Show** features these topics and more:

- Water - the universal solvent
- The water cycle; not something you ride
- Ecosystems and water
- Oceans - the earth's cooling system
- Hydroponics - growing plants in water
  - Powerful water - hydraulics, dams, oceans and rivers
  - Water "lives" in 3 states
  - Humans are "water machines"

## **The Water Show**

# **Description & Requirements**

- The Water Show is from 45 minutes to 60 minutes in length.
- It is suitable for preschool through 8th grade.
- The Water Show also can be done for large or small family groups.
- The Water Show is best done outdoors in a partially shaded grassy area. Playgrounds are fine as well. Parking lots can be used if necessary.
- There must be a garden hose connection close to the performance area with strong water pressure.
- Children (and their parents) should be told to wear swim suits for the show. Pool shoes and sandals are the best for The Water Show. We have all other children remove their shoes and socks to keep them dry.
- The performance area needs to be large enough to accommodate the wet area for the majority of the children and a dry zone area for anyone who can't get wet.
- Two adults from the audience are required to get wet in each Water Show.
- The Water Show can be staged next to a swimming pool which allows more wacky fun to take place.
- Set up and tear down requires 30 to 40 minutes each.
- Children are seated on the ground. Adults may sit in chairs.
